Dear Sir,

### NEW ALLOWABLE RATES FOR THE FIRST HALF OF THE YEAR 2014

We have carefully reviewed the performance of your wells and pools with all available information at our disposal and have computed new technical allowable rates for them.

The attached new allowable rates for SPDC is hereby forwarded to you and the allowable totaling 357,151bopd shall be effective from January 1, 2014.

We restate here that allowable is not transferable and that the individual well rate represents the maximum daily production from each well. Production rates will be maintained at or below the allowable rates only on condition that the wells concerned sustain acceptable performance.

*It is to be noted that with the exception of wells currently on approved test, any well not listed in the attached schedule should on no account be re-opened for production without permission from the Director of Petroleum Resources.*

Yours faithfully,

Maseli, P. O. (Mrs.)
